Product Overview

www.ecomanonline.com
Fulfill Your HR Mission.

Job Model, competency, and career management software that puts you in control.

Fulfill your HR mission to hire, retain and develop your best people. CompetencySet™ by EcoMan makes it easy to create, edit and manage your job descriptions, all linked with industry-best competencies.

At EcoMan, we’ve distilled 25 years of expertise into the leading job description and competency management software product available.

Combining Job Descriptions with the Power of AI

Take the ‘job’ out of job descriptions with AI generated and expert reviewed job descriptions. Our AI analyzes over 30,000,000 data points to create best of breed job descriptions that are updated over time so that you don’t have to.
CompetencySet by EcoMan helps HR professionals in small, mid-sized and big-sized companies fulfill their mission to hire, retain and develop the best people. Start with Mapping to define your jobs and competencies and then add Navigating to engage your employees.

**MAPPING**
Take control of your HR practices with software to manage **job descriptions**, **competencies** and **interview guides**.

**NAVIGATING**
Empower your employees with career management software that offers competency-driven **career pathing**, **assessment**, **development** and **insights**.
### Competency Management

Measure & manage your workforce with the most comprehensive set of competencies and competency management tools.

**Expert Developed Content**

Our 2000+ competencies have been refined over 25 years by experts in competency development. Includes behavioral, technical and leadership competencies.

**Manage and Edit**

Make changes to the competencies to reflect your company language, tone and core competencies. Ensure the latest competencies are included on every job description at all times.

**Core Competencies**

Identify shared company values, and standardize them for all jobs in the company. Apply core competencies to all jobs with one click.

**Competency Profile Builder**

Survey your managers and employees on the key competencies needed for the company and in their jobs with our purpose-built competency profiling survey tool.

**Statuses**

Control how competencies are added, and prevent accidental deletion with the ability to create drafts and archive published versions.
Career Path Navigation

Retain your top talent with career management tools that enable employees to navigate your organization’s advancement opportunities.

**Visual Career Path**
Visually represent career paths with a flow diagram that shows next steps and alternate paths.

**Personal Employee Space**
The central hub where employees build their profile of competencies, experience, certification and education. Flexible configuration settings to require manager validation of competencies or skills.

**Job Matches**
Employees can explore how their profiles align to other jobs or career development opportunities across the organization.

**Flexible Career Pathing Options**
Employees can set a target job, or free-explore from their current role to determine their career path.

**Link to Assessment and Development Plans**
Launch assessments and development plans right from the career path to identify and address competency gaps specifically related to the next step on the journey.
Competency Assessment

Retain your top talent with career management tools that enable employees to navigate your organization’s advancement opportunities.

Flexible Assessment Configurations
Choose to either assess an employee’s depth or breadth of ability with in-depth job-specific assessments, or competency diagnostic tools.

Multi-Rater Capabilities
Set rater options to include self, supervisor or 360 assessment.

Single/Bulk Dispatch
Dispatch assessments directly to specific employees, or set-up a bulk send to deliver the same assessment to multiple people.

Detailed Assessment Reports
Generate instant reports that protect assessor anonymity and provide details on the employee’s strengths and gaps to support learning and development.

Auto Suggest Learning Activities
Configure reports to automatically assign relevant learning resources and activities to address competency gaps identified through the assessment.

Aggregate Reporting
Measure organizational or departmental strengths and competency gaps and guide training and development. Track completion rates organization-wide and by departments.
Development

Map out a clear action plan for addressing competency gaps and achieving career-progression goals.

- **Link Competencies to Development**
  Create actionable plans around competency gaps.

- **Build Directly from Assessment Results**
  Create development plans directly from identified weaknesses during assessments with the press of a button.

- **Easily ID Learning Resources**
  Learning resources come associated to competencies, and can be selected from when building a personal development plan.

- **Standardize Development Plans**
  Managers can build template plans that can be used by anyone looking to accomplish a specific goal or objective.

- **Track Development Progress**
  All plans have goal tracking, and the capability to store comments and feedback about the goals on the plan.
Insights

Hire, develop, and retain the best talent with intuitive, real-time data and insights. Analyze talent insights and view trends across your jobs and employees.

- **Employee-Job Match Statistics**
  See at a glance which employees are in a given job, and how closely their profile matches the job requirements.

- **Tracking Hi-Po’s**
  Mark high-potential performers for target jobs, and see if they have an active career path that aligns.

- **Succession Planning Features**
  Bench Strength measures lets HR know how easy a job will be to fill internally; and potential matches shortlist successors.

- **Manage Your Team**
  See your direct reports’ activities, career paths and personal profiles, and dispatch assessments or development plans to them from one location.

- **Team Structure**
  Drill down to your direct reports’ teams and view activities and personal profiles.

- **Career Ladders**
  Start from a high-level job, and see which jobs feed into it, using career ladders.
